

**REACH  
Statement of Compliance**

14.10.2020

The regulation (EG) No. 1907/2006 (REACH Regulation) is an EU-Chemical-Regulation that entered into force on 1<sup>st</sup> June 2007 and has been updated in the following years. REACH is the abbreviation of Registration, Evaluation, Authorisation and Restriction of Chemicals. The purpose is a strong protection level of human health and the environment.

As a downstream user we are liable for information towards the customers. We are not liable for registration of substances.

Goods, which you purchase from DZS GmbH, do not by definition of REACH, have to be registered. Chemical substances contained in our goods, which may possibly be subject to registration, have to be registered exclusively by our pre-suppliers.

We maintain intensive contact with our suppliers to avoid that SVHC materials are included in our products.

On the strength of our experience no materials from the ECHA Candidate List with >0.1 mass percent are included in our goods or packages.

Should our goods or packages contain SVHC materials in the future, we will inform our customers if the reporting requirements are fulfilled.

In case of further questions regarding the implementation of the REACH regulation in our company, please do not hesitate to contact us.
